

Cypress Landing is a certified member of the Audubon Cooperative Sanctuary Program for Golf Courses

The Cypress Landing Golf Course is designated as a Certified Audubon Cooperative Sanctuary. Achieving this Audubon International certification reflects the leadership and commitment by the golf course and the total community to the high standards of environmental management.

As a certified member, Cypress Landing Golf Course has active programs to:

1. Enhance wildlife habitats on golf courses by working with the golf course superintendent and practice ecologically sound course management.
2. Encourage active participation in conservation programs by golfers, golf course staff, and the general public.
3. Recognize the people who are actively participating in environmentally responsible projects.
4. Educate the community about the benefits of the golf course and the role it plays relative to the environment and wildlife.
